- EABS is not responsible for any transport delays that may occur whilst the semen is in transit and cannot guarantee the time of arrival at the required destination.
- All semen collections are examined for quality of semen under the microscope before packaging. All semen sent is of good quality at the time it left EABS.
- All mares must be pregnancy tested 15 to 18 days after being AI'd, and AI Result Forms faxed back to EABS with the result. AI Form will be inside container with semen.
